## Dog Handling

### **A formidable team protecting you, your property and assets**

With a heightened sense of smell and hearing, dogs are able to sense disturbances and intruders much earlier than security guards alone. Where circumstances prevail, our security dogs are able to respond and act upon commands by our professional handlers, creating an effective visual deterrent to potential criminals.

One security dog and handler can effectively patrol a large area, thus reducing security costs.

Our security dogs are trained to protect the handler and will territorially protect your property in a controlled and professional manner. A formidable team protecting you, your property and assets.

Our dog handlers are all professionally trained and are members of the National Association of Security Dog Users (NASDU) and the British Institute of Professional Dog Handlers.

4 Forces dog handling, protecting you and your premises for over 40 years.
